Section 9: Notes on withdrawal

Withdrawal options

- You may not take any money in cash from your retirement component on your withdrawal from the Fund except if you are withdrawing from the Fund due to expiry of your visa.
- If you choose the transfer option, you must transfer all three your components to the same other fund and you will not pay any tax if you transfer your retirement savings to another fund.
- Cash withdrawals are subject to tax. If you choose to take your full, or a portion of your vested component in cash, it will be taxed on the withdrawal lump sum tax tables but if you take your vested component on your retrenchment as cash, it will be taxed on the retirement lump sum tax table. If you take your retirement component on expiry of your visa as cash, it will be taxed on the withdrawal lump sum tax tables.
- All withdrawals that you make from your savings component before your retirement will be taxed at your marginal income tax rate. Your annual taxable income is the amount you earned in the tax year in which you apply for a savings withdrawal benefit and is:
 - your income from your employment, such as your salary, wages, bonuses, leave pay, and commission, less your deductible contributions to the Fund and any other allowable tax deductions like a travel allowance, plus
 - if applicable, any other income such as annuities, rental income, and income from investments.
- You may take the total of or a portion (minimum of R2 000) of your savings component as cash if you have not withdrawn during the tax year of your withdrawal date and if the balance in your savings component is more than R2 000. If you did withdraw from your savings component during the tax year of your withdrawal date but the balance in your savings component is less than R2 000, you may take the total savings component as cash.
- If you choose to keep your full **retirement component** in the Fund as a paid-up benefit, it will remain paid-up in the Fund until you retire or until you decide to transfer it to your retirement component in another fund.
- If you choose to keep your **full or a portion** of your **savings component** in the Fund as a paid-up benefit you may still take all or portion of the money in your savings component in cash in the following tax year(s).
- If you choose to keep your **full vested component** in the Fund as a paid-up benefit, you will be able to exercise any of these withdrawal options at any time before your retirement date:
 - take your full vested component as cash.
 - transfer your full vested component (together with your paid-up savings and retirement component in the Fund, if applicable) to the same other pension, provident, preservation or retirement annuity fund.
 - take a portion of the vested component as cash and transfer the other portion to another pension, provident, preservation or retirement annuity fund (together with your paid-up savings and retirement component in the Fund, if applicable).
- If you choose to become a paid-up benefit member, you will:
 - remain invested in the same investment portfolio(s) you were in as an active member but will be able to switch to any one of the other available investment portfolios of the Fund.
 - not make any further contributions towards the Fund.
 - not be eligible for any insurance benefits.

Processing of your withdrawal benefit

- While your withdrawal claim is being processed, your benefit will be placed in the Fund's bank account to eliminate the possibility of your benefit being reduced because of volatile market conditions.
- After we receive the tax directive from SARS, and you owe them money, we will transfer the amount of the tax debt to SARS before we finalise the payment of the claim to you.
- The Fund will only start processing your withdrawal benefit claim after the last contribution made by and on behalf of you to the Fund is received. Contributions are payable up to the date of your exit.
